Representative Projects:

Dr. Conley has served as an educational leader in a wide variety of settings which include urban, suburban, metropolitan, multicultural, and international systems. These experiences have highlighted leadership issues and his ability to recognize exemplary educational leaders and practices. He is well known for his skill in crisis management and a strategist for implementing educational reform. He has numerous publications and has participated in several research projects. His contributions to educational improvement and effectiveness in decision making are recognized by his colleagues at the university and college level; and by school districts across the nation in which he has served as consultant to special projects and superintendent searches.
